To Whom It May Concern:

We write this letter in support of Andre Aho and ATA Construction (hereinafter referred to as "ATA"). They are truly wonderful to work with! Their customer service focus, integrity and quality ensured that our experience was pleasurable (removing much of the stress that normally is associated with building a new home).

In 2006, when we decided to build our new home in Mason, New Hampshire, we learned that ATA had 5-acre building lots remaining on or near Starch Mill Road. Two "spec" houses had already been built. We toured both houses, taking in the quality of the workmanship and landscaping.

From the first telephone call to ATA to set up a meeting to tour the building lots (Winter 2006), to moving into our new home in August 2007, we have nothing but high praise for ATA. Andre, his crew, and his subcontractors professionally and diligently worked with us on every detail. The team was very responsive to our numerous questions and concerns. It took only four months to build a house we fell in love with before we even moved into it!

Our home is now two years old. If any minor adjustment or repair needs to be made, Andre (or his right-hand man Calvin) promptly returned our telephone calls, and ATA was responsive in coming out to the house to take care of the problem.

We know that if we ever build another house, we would highly recommend Andre Aho and ATA Construction for the project. We would be glad to speak with you if you have any questions.

Sincerely,

Amyas and Tamara Huston
