

**To Whom It May Concern:**

**This is a letter of recommendation for Andre Aho and ATA Construction Company of Rindge, N.H.**

**When I was looking for a builder for my 3400 sq. ft. house in New Salem, Ma, a friend in New Ipswich, N.H. referred me to Andre. ATA Construction had just completed his home in New Ipswich.**

**Andre and I started talking about my house in the winter of 2005. For the most part, my plans were completed. Andre and I had three very long meetings in which Andre went over every mintue detail of the plans.**

**This proved to be highly advantageous as it meant few changes later. A price was quoted and I signed a contract with ATA Construction for work to begin May 2005. The actual construction went smoothly and my house was completed in October 2005.**

**The additional price of the few additions or changes I made were put in writing and I knew the exact cost (which increased by only a few thousand dollars) at all times. There were no unpleasant surprises.**

**Because of ATA's outstanding reputation in the Monadnock region, I was able to get financing through a Jaffrey bank, rather than another branch of the same bank in Massachusetts.**

**On the completion of the house, the New Salem building inspector issued the occupancy permit saying, "it's a PLEASURE to inspect such a well built house. I wish every house I inspect was as well built as this one.."**

**Tho New Salem is fifty minutes from Jaffrey, Andre's work crew showed up every day at 7:30 A.M. and worked until 5 P.M. or later. They were hardworking and courteous at all times and obviously took great pride in their work. None smoked and the only music I ever heard was soft rock gospel music.**

**At the time ATA was here, they also were in various stages of building five or six other homes. Andre's keen sense of detail and organization meant he was able to coordinate the work, materials and crew of all these projects. And he wad ALWAYS available by phone.**

**Andre is an amazing man and he has an equally amazing group of people working for him.**

**I highly recommend Andre Aho and ATA construction for any building project.**
